FULL SIZE SPARE WHEEL	IMMOBILISER

Very very low mileage and it has a WHEELCHAIR ACCESS RAMP CONVERSION in the back! The conversion has been completed by GM Coachworks who are one of the leading conversion specialists. Regarding the vehicle itself it is a very efficient 1.6 diesel and just group 8 to insure. Under 14,000 miles from new is very little indeed. Comes with good main dealer service history as it was a mobility car
